F is the Freshmen—they edit this week,
R is more room, which each lay we seek.
E is for each, working hard to be free,
S stands for school, our new High to be!
H is the hope, each student possessed,
M stands for merit, won by the best.
E is the earnest endeavor to win.
N is the need of a school to work in.

A LIBRARY NEEDED AT A. H. S.

A library is needed very badly at Abilene high school. We need not only a library with the books arranged alphabetically but a librarian also. Many pupils attend high school from the country and most of these pupils go home every night. They are not allowed to take books from the city library out of the city without paying a fee. These pupils have very little time to do their outside reading. If there was a library in the school they could get their books there without paying the library fee.

There are hardly enough books in the city library to accommodate all the pupils for their outside reading and our outside reading must be done before we can get any credit for our year's work. Some arrangements ought to be made for next year.

SUMMER VACATIONS—AND SOME ARE NOT

From interviews given by the faculty it seems that we will have even more learned teachers next year in A. H. S.

Mr. French, the principal, and Miss McLatchey seem to be the globe trotters of the faculty, for they are going to New York City to school. Mr. French is going to Lawrence first and then to Pittsburg, Kan., to visit relatives and from there to New York where he will attend Teachers' College, a branch of Columbia University.

Miss McLatchey will also go to

Teachers' College to take advanced work in German, so she says, but many have the idea that she will take landscape gardening as the work she did here proved so successful.

There seems to be some secret about Mr. Barekman's vacation, for he refused to disclose his plans.

Mr. White and Miss Hazen will have charge of the summer school for the grade pupils and will spend their time here in Abilene.

Miss Shade will visit with her brother in Oregon.

Miss Hopkins will take educational work at Lawrence.

Mr. Simpson will take a trip to Texas to visit.

Miss Pickard will leave for her home at Lawrence as soon as possible after school is dismissed.

Miss Shay will go to the Ginn music school near Chicago and after her work there will visit in West Virginia.

Miss Hunt and Miss Ault have no definite plans as yet.

Supt. Stacey, the busy man, expects to superintend the summer school, and supervise the construction of the manual training building and the remodeling in the high school building. The course of study in the grade schools of Abilene is to be revised by Mr. Stacey during the summer. Besides doing all this he intends to spend a few weeks in the Chicago University.

DR. MILLIE BENNET GIVES INTERESTING TALK TO GIRLS

Dr. Millie Bennet spoke to the A. H. S. girls Wednesday afternoon in the chapel on the subject of exercise. The girls were shown the importance of proper poise and a good carriage. It is to be hoped that Dr. Bennet will address the girls again.

The second year domestic science class has entertained the faculty in groups, and will entertain the members of the school board Friday evening under the supervision of Miss Hazen. The girls are accomplishing much and are now taking up the principles of canning fruit and vegetables.

The Freshman Latin class is translating sentences that are taken directly from Caesar. Won't we have an easy time next year?

FLAG STAFF IN PLACE AND U. S. FLAG UP

Several days ago draymen brought three long white pipes to the high school. The pupils were all wondering what they were, but the story was revealed last Thursday. Some men and boys attached the pipes together and they saw it was the "long promised flagpole." Girls and boys thronged the grounds, watching the men, using wires, pulleys and ropes balance the pole so it would go into the hole. The men put cement around the pole to hold it firm and solid. This flagpole is a great honor to A. H. S. and it is the first they have ever had.

Plans for Class Night Being Made

The class night exercises which come May 22 this year will be somewhat different. Each one of the classes is planning some very good stunts. The Senior class prophecy will be given by Harriet Patterson, the will of the class will be given by Marie Davis, and the history of the class by Chester Cassel. The object this year is to make the exercises as different as possible from those of the years before.

H. S. Work To Be Displayed

On Monday, Tuesday and Wednesday of next week the high school will have an exhibit of the work done by the manual training, domestic science and domestic art people. The manual training class will have on exhibition articles made during the year. The domestic science girls will have canned fruit, jellies and many other things. The domestic art girls will have quite a number of things they have made.

The Senior Play Thursday

The Senior play, which will be given May 18, is coming on fine under the direction of Miss Anit. "What Happened to Jones" sounds like an interesting topic as the players tell us. The seats will go on sale Monday at 8. The price will be the same as last year's, 35 and 50c.

Edna Issitt, one of the Senior girls, was called out of school one day last week to teach the third grade at Garfield school, as the teacher was ill.

The domestic art and science classes intend to take part in the

school exhibit and their work will be one of the chief attractions.

Have you noticed the new clothes that the D. A. girls are blossoming out in? Judging from the styles as made at school, stripes are "the" fashion, and green and white, the predominating colors. Many of the girls are wearing dresses which they have made at school.

The Freshmen and Sophomores will be the only classes in school Monday. A few Seniors who have to take examinations or are taking a subject that is not a Senior subject have to come back while the Juniors are going to have their annual all day picnic that day. The Seniors who have their work completed will not have to come back to school any more until Friday, May 26, for chapel.

Evidently a great deal of interest is being shown by the girls in the "gym" class, because when Mr. French announced last week that Thursday's class would be postponed, there were many disappointed faces. The Freshmen are as well represented in "gym" as any of the upper classes.

SCHOOL CALENDAR

- May
- 13—State Track Meet, Manhattan.
 - 18—Senior Play "What Happened to Jones," Seelye Theatre, Miss Cora Ault, Director.
 - 20—Invitation Meet, Lawrence.

 - 26—Baseball, Manhattan H. S. vs. A. H. S. at Manhattan.
 - 27—Baseball, School of Agriculture vs. A. H. S. at Manhattan.

REV. T. R. BRENDLE BUILDS \$12,000 CHURCH IN PENN.

The Rev. T. Royce Brendle, former pastor of the local Grace Reformed church, but now preaching at the Goshenhoppen, Pa., Grace Reformed church, has recently completed the erection of a new \$12,000 building. Dr. H. B. Felty has received a copy of the "Town and Country," a newspaper published at Pennsylvania, Pa., which contains a lengthy and illustrated article concerning the dedication. This congregation, established in 1738, is one of the oldest in the state and has a membership of 540. The new edifice has all the features of a modern church structure.

The Rev. Brendle was a brilliant scholar and preacher and his former parishioners here will be glad to hear of his success.

FEEL EVERY CHANGE OF THE WEATHER?

A Bad Back is Usually Worse During Bad Weather

Is your back like a barometer? Does it foretell every change of weather? Does every cold settle on your kidneys? Bring aching, throbbing pains? Does it disorder the urine? Have you thought the kidneys may be calling for help? Thousands recommend Doan's Kidney Pills. Abilene testimony proves their worth.

Mrs. H. Thompson, 806 N. Cedar St., Abilene, says: "I suffered a great deal from backache, mostly during cold weather. These attacks warned me that my kidneys weren't as strong as they should be. I used Doan's Kidney Pills with good results and since then I have taken them off and on, getting my supply from the Palace Drug Co. They have made my back easier and I am very thankful for the relief I have had." Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Thompson had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

ORGANIZE 5TH DIST. BATTALION

Modern Woodmen Drill Teams Form New Organization

With Maj. Gen. Saxon here, a Fifth district battalion composed of the M. W. A. drill teams from Salina, Concordia, Junction City, Manhattan, Clay Center, Gypsum City and Abilene was organized and the following commissioned officers elected: Major, Capt. R. W. Perkins, Salina; Adjutant, Capt. T. B. Riggs, Abilene; Quartermaster, J. W. Pilby, Junction City. Forester Hanson of Manhattan was elected sergeant-major, a non-commissioned officer. The teams form companies in this organization. After the organizing, the battalions met in formation for first time at Third and Broadway and then marched to the hall where other battalion formations were made and the teams heard the judges' decision on the competitive drill, read by A. S. Blair, secretary.

The Royal Neighbors had a county class of 50 and the degree team from the R. N. A. camp of Junction City did the work in good style. The visitors were a lively bunch, and determined to finish the day in good style, the were entertained at an old fashioned square dance by Mr. and Mrs. Riggs and Mrs. Marshall, district deputy, until early morning when the train left for the east. Then the Manhattan and Junction City teams under the leadership of Mr. Riggs gave drills on the depot platform, honoring Gen. Saxon, who was leaving on the same train. The lodge people had continued their celebration through the "wee sma' hours" of the morning.

Good For Colds

Honey, Pine-Tar and Glycerine are recognized cold remedies. In Dr. Bell's Pine-Tar-Honey these are combined with other cough medicines in a pleasant syrup. Dr. Bell's Pine-Tar-Honey quickly stops your cough, checks your cold, soothes irritation of the throat. Excellent for young, adult and aged. It's one of the best cough syrups made. Formula on every bottle. You know just what you are taking and your doctor knows its good for coughs and colds. Insist on Dr. Bell's Pine-Tar-Honey. Only 25c at druggists.

SHINING UP THE GOLDEN BELT ROAD IN DICKINSON

The Golden Belt road is being put in first class shape in Dickinson. The county is grading the entire road and later will gravel it. The Abilene Motor club and Chapman and Solomon good roads boosters are having the markers repainted, danger signs put up and it will be a standard road in Dickinson. M. G. Butterfield, representing the association, is superintending the remarking.

The Aches of House Cleaning

The pain and soreness caused by bruises, over-exertion and straining during house cleaning time are soothed away by Sloan's Liniment. No need to suffer this agony. Just apply Sloan's Liniment to the sore spots, rub only a little. In a short time the pain leaves, you rest comfortably and enjoy a refreshing sleep. One grateful user writes: "Sloan's Liniment is worth its weight in gold." Keep a bottle on hand, use it against all Soreness, Neuralgia and Bruises. Kills pain. 25c at your druggist.

MANHATTAN PROPOSES TO SHADE GOLDEN BELT

At the meeting of the Manhattan Commercial club the subject of planting shade trees along the Golden Belt road brought up considerable discussion, according to the Nationalist.

It was proposed that the Commercial club in conjunction with the high school students and the members of the Manhattan boy scouts plant shade trees along the route of the road so that a few years hence an agreeable shade will be provided for the motorists. The matter was referred to a committee.

"Chamberlain's Tablets Have Done Wonders for Me."

"I have been a sufferer from stomach trouble for a number of years, and although I have used a great number of remedies recommended for this complaint, Chamberlain's Tablets is the first medicine that has given me positive and lasting relief," writes Mrs. Anna Kadin, Spencerport, N. Y. "Chamberlain's Tablets have done wonders for me and I value them very highly." Obtainable everywhere.

PRIZE ROOSTER GOES LONG WAY TO BE PHOTOGRAPHED

C. R. Baker today shipped, via American express, one of his champion cockerels of his prize winning flock of chickens, to the Poultry World, Buffalo, New York, where this rooster, valued at \$300, will be photographed. The bird was shipped in a special designed coop and strangely, goes thousands of miles to have his "picher taken" while ordinary human beings only have to go to any common photographer.

Pills Best For Liver

Because they contain the best liver medicines, no matter how bitter or nauseating for the sweet sugar coating hides the taste. Dr. King's New Life Pills contain ingredients that put the liver working, move the bowels freely. No gripe, no nausea, aid digestion. Just try a bottle of Dr. King's New Life Pills and notice how much better you feel.

ANESTHETIC IN EMERGENCY KITS FOR BRITISH ARMY

New York, May 13.—Small bottles of anesthetic now are being placed in the kits sent to the soldiers of the British army in France by the Vacation War Relief association.

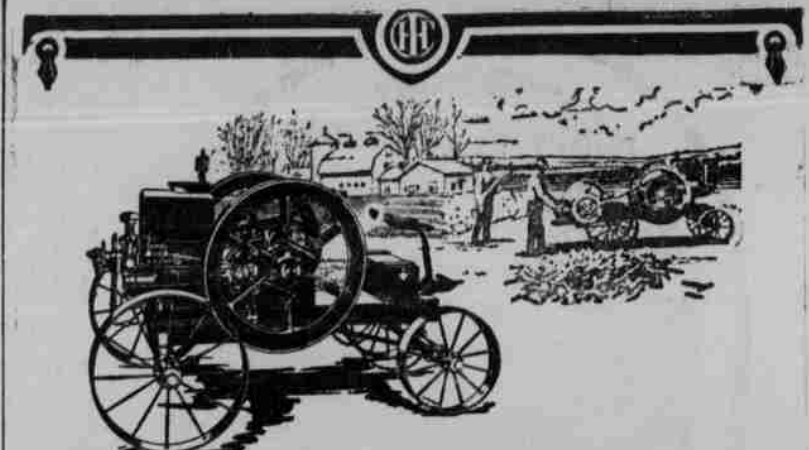

A spraying apparatus is attached to the bottle so that the wounded soldier may apply the liquid to his wound quickly. This produces local anesthesia which continues for three hours and releases the soldier from pain while awaiting the arrival of an ambulance.

Strength comes from well digested and thoroughly assimilated food. Hood's Sarsaparilla tones the digestive organs, and thus builds up the strength. If you are getting "run down" begin taking Hood's at once. It gives nerve, mental and digestive strength.

Rheumatism

If you are troubled with chronic or muscular rheumatism give Chamberlain's Liniment a trial. The relief from pain which it affords is alone worth many times its cost. Obtainable everywhere.

WEAK STOMACH is strengthened and toned by Hood's Sarsaparilla—the medicine that cures dyspepsia and **POOR APPETITE**.

Can You Afford Any but a Titan Kerosene Engine?

At present average prices for kerosene and gasoline, Titan kerosene engines save their owners about 1 r.c. per horse power per hour over gasoline engines.

Figure it this way. On an 8-horse engine the saving is 8.8c. an hour, 88c. in a 10-hour day, \$88 in 100 days of work. Say that is all your engine does in a year.

It would cost you \$88 more than you need to pay, to run an 8-horse gasoline engine one year. That is more than a third of the price of the engine. Can you afford to throw away \$88 a year? Can you afford even to think of buying a gasoline engine, when you can get a Titan that uses kerosene? See the Titan dealer and talk this over. He has some interesting figures to show you.

International Harvester Company of America (Incorporated)

Titan kerosene engines are sold by

MINICK & TAYLOR

JOINT DENTAL SOCIETY MEET

Representatives of Golden Belt and First District Confer

Dr. E. L. Garrett, executive counsel, and Dr. B. E. Kelly, secretary of the Golden Belt Dental society, conferred with Dr. McKee of Manhattan and Drs. E. E. Costen and Dr. Wm. Carpenter, officers of the First district association, at Manhattan yesterday and made tentative arrangements for a joint meeting of the two societies at Manhattan October 9, 10, 1916. Drs. Kelly, Costen and Carpenter compose the program committee and by the end of four weeks the program for the joint session will be announced. Members of the First district society and the Golden Belt will attend this session, which will be the first one where the two have cooperated.

Child Victim of Appendicitis

Roy Thomas, the 6-year-old son of Mr. and Mrs. Hugh Mustard, died at 6 o'clock Friday night of appendicitis at the home 11 miles northwest of Abilene. The loss is a very sad one to the parents, who have the sympathy of many friends. No announcements have been made of the funeral.

QUARTERLY STATEMENT

Of Newton Cole, County Treasurer of Dickinson County, Kansas, showing his hands for the quarter ending April 30, 1916.
